

A word-search puzzle from the Bible Pages.

Theme: Random words from the Scriptures.

70 words are hidden in this puzzle. They are printed across, or up or down, or diagonally, backwards or forwards, but always in a straight line, with no letters skipped. Each letter may form a part of more than one word. All letters do not belong to words, and there is no “hidden message”.

Most of the bible-related word-mazes at this site have each a special “theme”, and so, many of the words in them tend to be names of persons and places. This present puzzle number 64, and its companion number 65, do not contain names of that kind but consist instead of concept-related words which are more or less randomly picked from the Scriptures. The actual word-maze is found on page 2.
