

A word-search puzzle from the Bible Pages.

Theme: Random words from the Bible.

70 words are hidden in this puzzle. They are printed across, or up or down, or diagonally, backwards or forwards, but always in a straight line, with no letters skipped. Each letter may form a part of more than one word. All letters do not belong to words, and there is no “hidden message”.

Most of the bible-related word-mazes at this site have each a special “theme”, and so, many of the words in them tend to be names of persons and places. This present puzzle number 65, and its companion number 64, do not contain names of that kind, but consist instead of concept-related words which were more or less randomly picked from the Bible. The actual word-maze is found on page 2.
