

A word-search puzzle from the Bible Pages.

Theme: King David.

101 words are hidden in this puzzle. The words are printed across, or up or down, or diagonally, backwards or forwards, but always in a straight line, with no letters skipped. Each letter may form a part of more than one word. All letters do not belong to words, and there is no “hidden message”.

(The actual word-maze is on page 2.)

All names, places and other things that are included in this puzzle are in one way or another related to the life of king David, some closely, some peripherally. If you check up the names and places as you solve the puzzle, you can refresh your bible knowledge. Because, it is all too easy to forget how for instance a THRESHINGFLOOR was connected to David, or GIBEONITES, ITTAI or DANIEL, and so on.
