

## **A word-search puzzle from the Bible Pages. Theme: The history of Israel.**

This is the four-page “cut and paste” version for larger text on A4-printers. The actual maze has 15-point letters and must be combined of two separate printed A4-pages. – If you have an A3-printer, or if you want the actual maze on a single A4, with 12-point letters, see this address: [www.biblepages.net/rpa010.htm#63](http://www.biblepages.net/rpa010.htm#63)

135 words are hidden in this maze. They are printed across, or up or down, or diagonally, backwards or forwards, but always in a straight line, with no letters skipped. Each letter may form a part of more than one word.

All letters do not belong to words, and there is no “hidden message”. The word list is found on page 4 – actually two lists, one in alphabetic order, the other in a “story-flow order”.

This is a hard puzzle, for the most ardent word finders.

Regarding the choice of the words in this puzzle: They refer to persons, events and places in the history of the nation Israel, from the days of the patriarch Jacob (whose other name was Israel) to the founding of the state of Israel in 1948. Actually, even Jacob’s father and grandfather and certain persons and things connected to them, are mentioned. On page 3, in the word list which is in “story flow order”, after “Zerubbabel” comes the time between the Old and New Testaments, when different rulers controlled the land of Israel – Greece and Rome, and to a certain part even the Jewish Maccabeans, the Hasmonean rulers. The word and spelling “Palestina” refers to the Roman time. After “Gennesaret” in that same “story-flow order” word list, come some words that refer to powers that ruled the land of Israel between New Testament times and year 1948 when the state of Israel was founded.
